HESPERIDE DYO

by
Carsten Gollnick

Modernist and elegant – two words that describe the HESPERIDE DYO range to a T. The series includes a wide variety of side and low boards in different heights and widths that incorporate a characteristic feature of the range: a special body design topped with an inset storage tray for perfect aesthetics and function. The tapered – bevelled – edges of these items add a touch of elegance to their vertical and horizontal lines.

Also in the HESPERIDE DYO range are floating consoles, which come in various widths and finishes, and with or without the sliding cover and storage tray. HESPERIDE DYO furniture comes in a wide range of matt and highgloss paints, and with a choice of interior fittings to customise them to specification. The side and low boards come with shelves and drawers for living rooms and home offices, as well as perforated metal racks for storing shoes in entrance areas and dressing rooms.

The tops can be ordered with a leather, glass or marble-look ceramic insert. The cabinets can rest either on a base painted in the main cabinet colour, or on a finely powder-coated metal underframe in black. Either solution offers perfect stability and rounds off the cabinets' purist looks. The HESPERIDE DYO range also includes benches, coat racks, coat hooks, mirrors and accessories, all made of solid wood.
